Dear Parent/Guardian:

Pennsylvania School Health Law requires **Physical Examinations** for children in **Kindergarten, 1 (new students), 6 and 11**. These grades were selected because it represents a critical period of growth and development in your child's life. You may also have received this form if your child does not have a physical in their medical file or in advance of the next required grade level.

This requirement may be met in two ways, a physical examination by the student's private physician or by the school practitioner. If a private physician is preferred, please have your physician complete and return the Private Physician Report of a Physical Examination located on the district website under Health Services or request a copy from the school nurse.

It is recommended that the examination be done by your child's physician since he/she can best evaluate your child's physical health and assist you in obtaining follow-up care.

**The school physical examination, free of charge, will be done in the spring if a private exam is not returned to the school by April 1st.** The date will be posted to the website and the parent/guardian may be present. **Complete the student history page of the physical form and return the entire form.**

If you have any questions, please call the school health office. Thank you in advance.
